Definition	The PID found in the url for online-only participants, or specific to the first page of the survey for in-person participants	The version number attached to the survey the participant took	The start time of the survey	The time the participant ended the survey	The total time (mm:ss) it took the participant to go through the last page of the survey	The total time it took the participant to go through the last page of the survey	The participant's response to "How much experience did you have with VR Gaming before today?"	The total time it took the participant to read through the instructions	It refers to the block number, Y refers to the DM number the participant saw. For Eval 4 and 5, the participant saw the blocks with 2-3 DMs each. The following columns describe each page of the survey using this BS_DMV format.	The TAI lists that match the scenario the DM responded to	The TAZ lists that match the scenario the DM responded to	The DM Type	The alignment level of the DM based on the previous column's alignment	The target matching of the DM based on the previous column's alignment	The name assigned to the DM that participant viewed	The time the participant spent on this page	The score to show to the participant	The participant's response to "Do you agree with the decisions that this medic made?"	The participant's response to "How this medic made medical decisions is how trustworthy"	The participant's response to "This medic is trustworthy"	The participant's response to "I would be comfortable allowing this medic to execute medical triage, even if I could not monitor it"	The name and alignment value of the first medic being compared in this comparison page	The name and alignment value of the second medic being compared in this comparison page	The name and alignment value of the third medic being compared in this comparison page	The amount of time the participant spent (mm:ss) on the comparison page	The response to the first forced choice question (Baseline vs aligned)	The response to "Rate your confidence about the delegation decision indicated in the previous question" for the first forced choice	The participant's explanation for their delegation choice	The response to the second forced choice question (Aligned vs misaligned)	The response to "Rate your confidence about the delegation decision indicated in the previous question" for the second forced choice question	The participant's explanation for their delegation choice
Levels	4, 5					0 - None at all 1 - I have used it, but not often 2 - I used it occasionally 3 - I use it often 4 - I used it all the time	0 - None at all 1 - I have used it, but not often 2 - I used it occasionally 3 - I use it often 4 - I used it all the time	BS_DM1, BS_DM2, BS_DM3, BS_DM4, etc.	TAI or AD	Edmore or Parallel	aligned, baseline, misaligned	ADDP F.O.D-1.0 for DMs, only F.O.D-0.0 for "Star Tech" (change the name, such as "jet synth. heart tech")	Medic ID, where, is a letter and it is a number				1 - Strongly Disagree 2 - Disagree 3 - Neither agree nor disagree 4 - Agree 5 - Strongly Agree	1 - Strongly Disagree 2 - Disagree 3 - Neither agree nor disagree 4 - Agree 5 - Strongly Agree	1 - Strongly Disagree 2 - Disagree 3 - Neither agree nor disagree 4 - Agree 5 - Strongly Agree	1 - Strongly Disagree 2 - Disagree 3 - Neither agree nor disagree 4 - Agree 5 - Strongly Agree	1 - Not confident at all 2 - Not confident 3 - Somewhat confident 4 - Confident 5 - Completely confident				1 - Not confident at all 2 - Not confident 3 - Somewhat confident 4 - Confident 5 - Completely confident		1 - Not confident at all 2 - Not confident 3 - Somewhat confident 4 - Confident 5 - Completely confident
