Definition		The PID found in the url for online-only participants, or typed on the first page of the survey for in-person participants	The version number attached to the survey the participant took	The start time of the survey	The time the participant ended the survey	The total time (mm:ss) it took the participant to complete the survey	The total time it took the participant to go through the last page of the survey			X refers to the block number, Y refers to the DM number the participant saw. For Eval 4 and 5, participants saw 4 blocks with 2-3 DMs each. The following columns describe each page of the survey using this BX_DMY format.	The TA1 team that made the scenario the DM responded to	The TA2 team whose DM is responsible for what the delegator saw	The alignment level of the DM based on the alignment gathered from the participant's text responses	The target matching the alignment in the previous column based on the participant's text responses	The name assigned to the DM the participant viewed.	The time the participant spent on this page	The scenario shown to the participant	The participant's response to "Do you agree with the decisions that this medic made"	The participant's response to "The way this medic makes medical decisions is how I make decisions"	The participant's response to "This medic is trustworthy"	The participant's response to "I would be comfortable allowing this medic to execute medical triage, even if I could not monitor it"	The name and alignment value of the first medic being compared in this comparison page	The name and alignment value of the second medic being compared in this comparison page	The name and alignment value of the third medic being compared in this comparison page	The amount of time the participant spent (mm:ss) on the comparison page	The response to the first forced choice question (baseline vs aligned)	The response to "Rate your confidence about the delegation decision indicated in the previous forced choice	The participant's explanation for their delegation choice	The response to the second forced choice question (aligned vs misaligned)	The response to "Rate your confidence about the delegation decision indicated in the previous question" for the second forced choice choice question	The participant's explanation for their delegation choice
